REMOTE BLUE WATER ACTION

where the fish grow big...

Our Ultimate Adventure is tailored to the angler with a taste for exploring very remote locations that have some of the best blue water sport fishing in the world. We fish iconic reef systems such as Bligh, Log and Ferguson, Margaret Bay and Forbes Island, the sand flats of Claremont Isles and the wonky holes and vast river systems in Princess Charlotte Bay. These locations are accessed via private charters flights to Portland Roads on Cape York, or Hicks Island.

It's a 40 minute drive from Lockhart River to Portland Roads where guests rendezvous with our 70 ft mothership Blue Martini. Over the week you will fish some of the most remote and productive waters in Australia aboard our 20' Centre Consoles in the hands of our very experienced guiding team.

There's a huge array of pelagic and reef fish to target and they can get to epic proportions in these remote waters. We chase Dogtooth Tuna, Mahi Mahi, GT's, Nannygai, Queenfish, Fingermark, Red Emperor, Coral Trout and many more.

BIG BARRA TERRITORY

where the wild fishing is...

Princess Charlotte Bay is one of the most spectacular, untouched wilderness destinations in the world. The landscape comprises a wide open bay which backs onto Queensland's largest wetland in Lakefield National Park.

It is home to a huge variety of sport fishing species plus you get to view a lot of other marine life including dolphins, dugong, turtles, sharks and saltwater crocodiles, and a huge number of bird species.

At the end of the wet season the bay is fantastic for targeting large barramundi. The average size of the fish caught are large with meter long models not uncommon. In addition to the run off Barra fishing (Feb – April) the bay and the outer edges also provide world class blue water sport fishing for those that would like to mix it up.

THE ULTIMATE LOCATIONS

Vessels chartered for the duration:
Blue Martini, Centre Consoles (x3)

6 Guests

6 Crew (including 3 private guides)

All meals and non-alcoholic drinks
